Invest in charity

Low-cost, high-quality investments to grow your charitable impact

Vanguard Charitable philanthropic accounts allow you to recommend investments, watch your charitable assets grow tax-free, and grant more to charity over time¹—all without sacrificing any tax benefits.

Vanguard Charitable extends the direct benefits of Vanguard’s at-cost investments to your account. Excessive fees can erode an account’s value over time, limiting your potential to achieve your philanthropic goals. Because of our relationship with Vanguard, we can offer even lower investment fees than may traditionally be assessed.

When we work with Vanguard to maintain low investment costs, we keep more of your charitable dollars working for the causes you care about most.

Visit our investments page vanguardcharitable.org/investments for more information on how your account benefits from Vanguard’s sophistication, expertise, and more than 40 years of investment know-how.

In addition to our low investment fees, our administrative fees are tiered so that the more you give, the greater your charitable impact. Donors with account balances of \$1M or more may be eligible for lower administrative fees. To learn more about Premier account benefits, please visit go.vanguardcharitable.org/premier.²

TIFF Multi-Asset Fund

Diversify with an exclusive option

For qualifying donors,³ we also offer access to TIFF Investment Management’s (TIFF) Multi-Asset Fund, an actively managed fund that gives qualifying donors the opportunity to recommend a long-term, intergenerational investment across a broad range of asset classes. Historically only available to foundations and endowments, this globally diversified strategy offers exposure to traditional and alternative investment strategies and access to highly skilled, institutional quality managers. For more information, visit vanguardcharitable.org/investments/tiff.

TIFF Multi-Asset Fund returns are based on the total returns of the underlying investments, net of three components: Fund expenses, change in share price, and reinvestment of dividends and capital gains. Market summary as of March 31, 2023

Investment options composed of underlying Vanguard funds

Financial markets traced a rocky path to solid gains over the first quarter of 2023. They rose sharply early on amid signs of moderating inflation, declining energy prices, and solid labor markets despite layoffs in the U.S. tech sector. Then strong economic data and slowing progress on the inflation front raised concerns that central banks would need to significantly raise interest rates—a shift in outlook that contributed to stocks’ giving back some ground. The sudden shuttering of two U.S. regional banks and turmoil in the European banking sector sparked another bout of volatility in early March, but sentiment turned more upbeat by the close of the period.

Stocks finished higher, with Europe and the United States showing more strength than Asia and emerging markets.

Overall, U.S. bonds saw their yields finish lower and prices higher. The yield for the bellwether U.S. 10-year Treasury note, for example, declined from 3.87% to 3.47%. The broad U.S. investment-grade bond market returned about 3% (as measured by the Bloomberg U.S. Aggregate Float Adjusted Index).

Performance

All Vanguard Charitable investment performance returns (except for TIFF Multi-Asset Pool) reflect the following components:

Investment options

Our Portfolio Builders investment options are individual funds across risk and asset classes, which can be used to create a custom investment portfolio. Values-driven Investments give donors a low-cost opportunity to align their charitable investments with personal values and still maintain broad representation of equity markets.

² Philanthropic accounts with balances of \$1M or more for at least three consecutive months may be eligible for reduced pricing on those assets under management above \$1M. Premier status eligibility is reviewed on a quarterly basis; account balance and activity are part of the review. Accounts not eligible for Premier status will be charged 0.30% admin fee on assets above \$500,000.

³ TIFF MAP: An actively managed, globally diversified portfolio of traditional and alternative investments, MAP's annualized expense ratio is greater than that of passive portfolios or active/passive mixed portfolios. Performance is shown net of all fees and expenses. 3.03% annualized expense ratio for the year-ended 12/31/2020. This fee includes 1.58% of performance fees paid to external managers and 0.45% of expenses for securities sold short. The Multi-Asset Pool is generally available to accounts with ongoing balances over \$100,000. Refer to our Policies & Guidelines for more information.

⁴ Expense ratios are assessed by The Vanguard Group, Inc. and/or TIFF funds and vary based on allocation; Vanguard Charitable does not itself charge investment fees. Vanguard Charitable investment options may be composed of Investor, Admiral, Institutional and Institutional Plus share class investments. For more information about share classes, see vanguard.com. Each share class has varying operating expenses and account minimums, which are reflected in their respective fees.

Vanguard

Vanguard Charitable is one of the largest charities in the United States. We were founded by The Vanguard Group, Inc. in 1997. As an independent, nonprofit, public charity, Vanguard Charitable is focused on increasing philanthropy by administering the highest-value donor-advised fund—a tax-effective way to invest, grow, and give assets to charity.

Although Vanguard provides certain investment management and administrative services to Vanguard Charitable pursuant to a service agreement, Vanguard Charitable is not a program or activity of Vanguard. While we are separate entities, Vanguard Charitable is strongly aligned with Vanguard's principled investment philosophy and unwavering values, including its commitment to ethics, transparency, and at-cost investing.

We firmly believe that minimizing costs can help maximize philanthropic impact. No other donor-advised fund can extend the direct benefits of Vanguard's at-cost investments as we can.
